Here we are now.
Our badge of honour.

We wear our badges with pride. They show our integrity, feelings, and celebrate our “can-do” spirit. At Gourmet Settings we think that every time you sit down at your table and eat with your friends and family, your flatware should bring you a little dash of joy. Every time. We know it’s a small thing, but you use your forks and knives and spoons three times a day, 365 days a year. We believe they should bring a smile to your lips.
Here, there, and everywhere!

We’ve built a network around the globe. We sell at Costco, Target, Bed Bath and Beyond, Crate & Barrel, Williams-Sonoma, Macy’s and many other retailers around the world – in Canada, the U.S., Mexico, and the U.K.

Gourmet Settings flatware is available at many fine retailers including:
We’re recognized.

Not only do we have exceptional sales, but our flatware design, packaging and website have all been recognized again and again because of our commitment to quality design and manufacturing. Our innovative design strategy for Costco was recently awarded a prestigious Gold medal at the International Design Excellence Awards featured in Business Week Magazine. Our steak knives have also been featured in Oprah Magazine and the New York Times.
We’re committed to innovation.

Each of our exclusive patterns is researched, modeled, drawn, prototyped and refined before it goes into final production. Using CAD programs and hand-carved foam and wood models, our designers create precise prototypes of all our flatware. They become intimately involved with each form in all its subtleties and details.

Reinventing flatware

Our process has involved rethinking everything – how people eat, how they paw the packaging and how they shop, how designers design and how manufacturers produce. We use steel efficiently and continually design our packaging to meet or exceed the best international standards.
We’re making a difference.

It’s eco-logical! To reduce the environmental impact of our packaging we designed a 100% post-consumer recycled cardboard box without a plastic lid, replaced nylon tying cables with biodegradable twist ties, and we print with vegetable-based inks without lamination. To reduce our transportation footprint we also significantly reduced the size and weight of the packaging itself.

Our new green boxes.
With innovative thinking our team can create great solutions to problems. We can give an everyday thing a new twist that gives it a real kick or an unexpected appeal.
Our manufacturing expertise.

We learned how to use steel better, finish it better and waste less material. Our team has a thorough knowledge of all the manufacturing processes involved in turning an idea into reality – from stamping and forging to brushing and polishing, to packing and shipping. Along the way we obsessively check these processes to ensure the best results. But it’s not just technical. Intuition, inspiration and imagination are always part of the equation.

Stainless steel.

Because of the recent spike in the price of nickel, we are currently working with metallurgists in Sheffield, England to develop affordable, nickel-free stainless steel of the finest and purest quality.
Our team.

We try. We promise. At Gourmet Settings everybody thinks as part of a team. Designers, suppliers, everybody in ordering, sales, and in management care about what we do. We’re always trying to make our products and services better. Let us know how we’re doing. We care. We mean it.

There really is a Jane!

If a customer has a question, our customer service queen Jane can be reached by toll-free phone or e-mail. She knows all there is to know about Gourmet Settings. We believe our culture of service is second to none.
We deliver.

Working with us is hassle-free. Planning, logistics, and order fulfillment are integral to what we do. We design our packaging and shipping cartons to maximize shelf space and enhance their retail presentation in palettes. We manage a meticulous and efficient delivery system that monitors schedules, quantities, and quality to ensure that our flatware gets delivered on time and in perfect condition. We’ve created a series of innovative, customized point-of-purchase displays that make sales easy.

Package deal.

Our customized, award-winning packaging sets us apart from the competition.
Our style.

We use our imagination and experience to think about the way we set our tables and eat. We’ve thought about how people live, what they want and what they need when it comes to dining and hosting. We think we can bring style, quality and smarts to flatware and your table. We think we make it fun, zippy, less formal and more modern to fit in with your lifestyle. Our casual elegance will rejuvenate your kitchen, revitalize your dining room and renew your table!

A range of our patterns.

We have exclusive everyday styles, more formal Continental sizes as well as our recognized Handmade patterns.
We have a lot to offer.

We specialize in developing unique patterns with diverse packaging solutions that meet our clients’ needs. We currently have dozens of different exclusive patterns in production, from more decorative patterns to sleek modern designs and larger Continental sizes with hollow-handled knives. Let us know what we can do for you.

Great design at a great price.

Things should be beautiful, and practical. That’s the challenge and that’s what we love. Little things should bring pleasure in their everyday use – the way our flatware feels in your hand, how it cuts or scoops, how great it looks, how strong it is, how durable and how well priced.
Accessorize!

From standard serving pieces, ice scoops to ladles, tongs, cake and lasagna servers, ice cream sets, spreaders, bread knives and mini coffee spoons, we have developed a full range of exclusive accessories that complement your table-top experience.

Total table.

Here are some of the over 30 accessories from our popular Windermere pattern. If we don’t make it, you don’t need it.
From us to you.

It's our personal touch and our real care that define us. We create beautiful quality flatware that really works (at the right price, too) and that has won us accolades, attention and, quite frankly, a whole bunch of imitators! This passion means that we don't rest until we get it right. And yes, that means better flatware. We love to bring it to you!

You'll love it, we promise.
